StreetExpress-The Smart Way To Find Your Way Around Town.

Perth Streetsmart Street Directory is now available in CD format and offers more than twice the coverage of the traditional hardcopy street directory.

Streetsmart StreetExpress 2007 covers 451 road maps combined into a single seamless image, with 31 enlargements including Rottnest Island, Perth, Fremantle and Mandurah CBDs plus arterial roads.

The user friendly interface allows for easy navigation between maps, giving fast access to maps, streets, suburbs and facilities.

Users need only to type in the name of a street or destination and StreetExpress will identify its location on a map.

StreetExpress 2007 also measures distances to be travelled and offers users the opportunity to personalise their map, by providing a facility to draw and add text. Maps can also be printed in colour or black and white.

Maps cover the metropolitan area from Two Rocks in the north, Chidlow in the east, and south to Port Bouvard and Pinjarra.

StreetExpress 2007 is produced by Landgate (formerly the Department of Land Information) and is available only from Landgate offices at Midland, Mount Street (Perth) and Bunbury.
